

Synthetic Data Server Bibliography

lars.vilhuber

November 18, 2016

This bibliography serves as an example how to (a) cite data (b) cite the relevant documentation for the data present on the Synthetic Data Server. The bib files are pulled directly from the web server at <https://www2.vrdc.cornell.edu/>. Articles are in alphabetical order of the first author's last name.

For instance, to cite the SIPP Synthetic Beta version 6.0 data, you would use (U.S. Census Bureau 2015), and in addition cite its documentation (Reeder, Stinson, Trageser, and Vilhuber 2015). You might also add the document describing its creation (Benedetto, Stinson, and Abowd 2013).

This bibliography can be easily recreated by cloning our git repository at <https://github.com/ncrncornell/sdsbib>. The bibliographic database was downloaded on November 18, 2016 directly from <https://www2.vrdc.cornell.edu/news/wp-content/papercite-data/bib/ssb-data.bib> (other locations in the L^AT_EX source code). A flag can be set in the preamble of this TEX file to use the local checked out version in the git repository.

Preprints, Working papers, and Data

- Benedetto, Gary, Martha Stinson, and John M. Abowd. 2013. *The Creation and Use of the SIPP Synthetic Beta*. Tech. rep. U.S. Census Bureau. <http://hdl.handle.net/1813/43924>.
- Reeder, Lori B., Martha Stinson, Kelly E. Trageser, and Lars Vilhuber. 2015. *Codebook for the SIPP Synthetic Beta v6.0.2 [Codebook file]*. DDI-C document. Ithaca, NY, USA: Cornell Institute for Social and Economic Research and Labor Dynamics Institute [distributor]. Cornell University. <http://www2.ncrn.cornell.edu/ced2ar-web/codebooks/ssb/v/v602>.
- U.S. Census Bureau. 2015. *SIPP Synthetic Beta Version 6.0.2*. [Computer file]. Washington,DC and Ithaca, NY, USA: U.S. Census Bureau [producer] and Cornell University, Synthetic Data Server [distributor]. <http://www2.vrdc.cornell.edu/news/data/sipp-synthetic-beta-file/>.
